A new future for dog breeding

The Royal Kennel Club has launched its Breeding For Health Framework (BFHF), based on a report, authored by Dr Alison Skipper. The report underpins the Royal Kennel Club's BFHF, which will act as the roadmap for the future of pedigree dogs and is the result of over a decade's work in this field, culminating in a number of key projects undertaken over the course of last year.

The BFHF comes at a time when the world has dramatically changed, and the dog breeding landscape is facing unprecedented challenges. The RKC recognises the need to do more to support the pedigree dog breeders, this is exactly what this work intends to achieve.

The framework builds on many years of work, reviewing over 4,000 scientific publications on pedigree dog health and follows on from our Breed Health and Conservation plans. Most importantly, the RKC identified the primary issues and, having listened to the community, commissioned a report

in early 2025 to dictate how best to support pedigree dog health.

The framework is the result of this report, authored by Dr Alison Skipper, which includes a full review of all 222 Breed Health and Conservation plans in addition to close collaboration with numerous stakeholders including breeders, breed health co-ordinators, veterinarians and subject matter experts.

Central to the report, which has been published on Thursday 15 January 2026 ([here](#)) alongside a shorter, summarised version, is the framework which categorises the key issues for pedigree dogs into nine areas to be addressed.

In 2026, the RKC has committed to deliver, in close collaboration with both vets and breeders, a key project to tackle each of the key areas; Genetic diversity, Conformation and Breed-Related disease.

1. Genetic Diversity: Small Populations Working Group

The BFHF has identified, based on scientific evidence, groupings of breeds which we will prioritise. We have therefore already invited representatives from over 100 breeds to form a working group to build the plan for their future.

2. Conformation: Nose-To-Tail Veterinary Assessment

Dogs need a healthy body shape, and breeders need a tool that has been scientifically backed and measures conformation to help them make informed choices. The BFHF will help us to deliver a nose-to-tail veterinary assessment by the end of this year.

3. Breed-Related Disease: Mandatory Health Testing Process

The BFHF builds on the existing health standard to determine when health testing should or shouldn't be mandatory, based on the breed and type of test. The development of this process will begin in 2026.

A new future for dog breeding

Continued from page 1

This work, initiated in early 2025 and building on a decade of work in this field, ensures our findings and subsequent plan have been thoroughly researched, stress-tested and scientifically verified. However, recent external factors at the end of 2025, with regard to conformation in particular, mean this work is more vital than ever. Given the scientific review this work has been based on, we are confident that our unique solution we will be able to offer with our nose-to-tail veterinary assessment by the end of the year, will equip breeders to address the challenge with the support and backing of both the RKC and our veterinary community.

We are committed to playing a leading role in tackling these challenges

Charlotte McNamara, the Royal Kennel Club's Head of Health and Breeding, says, "No organisation is beyond reproach, and we recognise our role in the challenges we now face when it comes to pedigree dogs. We are committed to playing a leading role in tackling these challenges with a solid plan which is being implemented in conjunction with both breeders and the veterinary sector. We are here to listen, and we know our success is dependent on a close relationship with our breeding community".

Dr Alison Skipper, author of the "A New Future for Dog Breeding report", says, "The Royal Kennel Club is uniquely positioned to lead improvements in canine health. Together we have developed a new, comprehensive Breeding for Health framework that builds on our current health tools and resources to better address concerns which cover all aspects of health. I firmly believe anyone should feel proud to buy a healthy pedigree

puppy from a traceable, RKC-registered breeder who follows best health and welfare practice.

Ian Seath, Chairman of the Royal Kennel Club, says, "When we announced our new Royal prefix in November, we said that this strengthened our purpose to do more. The BFHF demonstrates how we are "At Their Service" and we are confident that this is a turning point for both the organisation and our community. Without this vital work, we must unfortunately acknowledge the reality that external factors could pose a real risk to some of our most loved breeds."

The Young Kennel Club (YKC) has announced the winners of the 2025 Artist of the Year competition and launches the 2026 photography competition.

The popular art competition invited YKC members to express their creativity and showcase their dog artistry skills, with all entries required to feature a dog and fit the theme 'celebrating the incredible bond between young dog owners and their dog/s and 40 years of the YKC'. Health Surveys

Breed and aim of survey

Further information

All breeds

We are currently hosting our own Kennel Club survey investigating glaucoma development and risk later in life. If your dog has had a gonioscopy test as part of the BVA/KC/ISDS Eye Scheme, we'd be so grateful if you could complete our new short survey to help us.

Complete the short survey [here](#)

Please note that the form is one response for each dog due to data formatting. We appreciate any time taken to help our research!

All breeds

The aim of this research is to collate data around whelping milestones, in order to re-evaluate current recommendations and guidelines on whelping monitoring, and on management practices in broodbitches to improve mother and puppy wellbeing and puppy survival.

If you are interested, please complete the survey [here](#).

For further information, please contact Dr. Orsolya Balogh at obalogh@vt.edu or see website [here](#).

All breeds

The aim of this research is to investigate how dog owners perceive routine husbandry (e.g. nail clipping) with their dogs and the extent they cause stress for themselves or their dog. The survey also explores other possible factors affecting the owner's and dog's perceived stress level during routine husbandry procedures.

If you are interested, please complete the survey [here](#).

For further information, please contact University of Portsmouth's Anna Sydanheimo at anna.sydanheimo@port.ac.uk

All breeds

This study is exploring the effect of early social experiences in puppies on a dog's behaviour, health and wellbeing, with the goal of supporting evidence-based recommendations for long-term welfare of dogs.

The first phase of data collection requires puppies between 8 to 12 weeks, with a Buccal (Cheek) swab and hair sample. If you are interested, please complete the survey [here](#). For further information, please contact Chih Hsin Kuo at 2792925k@student.gla.ac.uk

All breeds

To investigate the potential role of heart disease in unexplained puppy deaths. Breeders can participate by allowing post-mortem heart exams for puppies lost before 4 weeks.

For further information please contact Caroline Cutler (Veterinary Cardiologist and Project Lead) via puppyhearts2025@gmail.com

SEMINARS:

- Points of The Dog
- Conformation and Movement

E: sue.finnett@icloud.com

When Conformation and Movement trainers were being sought, she and Hector applied and were accepted.

They used a Deerhound skeleton, their first champion - which even travelled with them to a seminar in Holland, thanks to a special DEFRA letter confirming he was rabies-free!

It's been a joy for her to see attendees compare bones on a live dog, like a Saluki or Whippet, with the skeleton and say, "I finally understand front construction!". She now judges several hound breeds and the Hound Group, and she's still learning - that's what keeps it fun.

Fun Fact: Their daughter, aged 7, once asked, "Where's the coupling?" and "Where's the brisket?" after reading their seminar diagrams. She went on to take the POD at Windsor Ch Show and passed - with just one mistake!

26 November 2025

Windsor Championship Dog Show 29 June 2025

Mrs Toni Jackson

Background

1. The Judges Committee reviewed the behaviour of Mrs Jackson as the Group Judge; Pastoral at the Windsor Championship Dog Show 29 June 2025.
- i. Mrs Jackson had a pastoral group judging appointment at the Windsor Championship Dog Show 2025. Prior to this date there was an issue with an overseas exhibitor's documentation regarding her attendance at the Windsor Dog show. As the main administrator on the Southern Finnish Lapphund Society page the French exhibitor had reached out to Mrs Jackson on 27 June 2025, to help her deal with the issue as her English was poor and she lived overseas.
- ii. Mrs Jackson supported the exhibitor with a query over a double receipt for entry fee payment for the Partnership Show Southern Finnish Lapphund Society on 29 June 2025;
- iii. The exhibitor persisted in insisting that entry had been made to Windsor Championship Dog Show also;
- iv. Fosse Data did not have any record for such entry;

- v. Mrs Jackson supported the French exhibitor – with evidence provided to her by the exhibitor for the entry to Windsor;
- vi. Fosse Data made it very clear that the evidence provided was not genuine but a doctored payment receipt;
- vii. Mrs Jackson persisted in supporting the position of the exhibitor until accepting the position presented by Fosse Data;
- viii. This activity caused concern and was ill advised of a Group Judge to have become so directly involved in supporting the exhibitor pre show.

The matter was reviewed under the umbrella of The Code of Best Practice for Judges.

1.4.3 Judges should conduct themselves in a manner compatible with the standing of a Judge at all times whilst at a show/trial and in any other capacity which might have a bearing on the interests of the canine world.

This is not an allegation inferring that Mrs Jackson was party to a fraud – there is no evidence to make that assertion.

Appeal

1. This is an appeal from the Judges Committee decision of 2 October 2025.

The Judges Committee recommended the following actions:

- A robust letter of reprimand for the actions of Mrs Jackson.
- Suspension of the approval to judge under Regulation F 10 c for a period expiring 31 December 2028.

Mr Stuart McCabe-Bell declared an interest in knowing Mrs Jackson as a judge at shows for societies where he is involved at committee level.

Mr Ian Kettle is also aware of Mrs Jackson from Field Officer roles.

It was not felt that this knowledge would debar the committee members from adjudicating on the matter.

2. Mrs Jackson submitted grounds for appeal from the decision of the Judges Committee;
 - a) decision was made in a procedurally unfair manner.
 - b) relevant new evidence.
 - c) the penalty was disproportionate.

Procedural unfair manner

3. Mrs Jackson asserted that there was a conflict of Interest on the basis of connections of members of the Judges Committee and Fosse Data. The Tribunal reviewed this as a preliminary matter.

The Tribunal noted that Adrian Marrett – declared the direct interest of being employed by Fosse Data and recused himself and did not participate in the decision process.

Stuart Payne declared an interest in being on the Show Executive Committee and recused himself and did not participate in the decision process.

There were other members listed as having a conflict of interest on the basis of using Fosse Data for show entry processing services;

- Mr D Clarke, who is the Secretary of Crystal Palace CA who use Fosse Data as entry processors;
- Mr D Guy – is on the Committee of Crufts and who use Fosse Data as entry processors;

- Mr J Horswell is the Show Manager of Thame & Oxfordshire County CS who use Fosse Data as entry processors;
- Mr S Payne is the Convener of The Scottish Kennel Club who use Fosse Data as entry processors; and
- Mr S Plane is the President of the Scottish Terrier Club (England) who use Fosse Data as entry processors.

As Fosse Data is a main show entry processor and it is entirely operational without any direct or indirect affiliations or any other factors the Appeals Tribunal did not consider that such connection would detract or preclude from adjudication on this matter.

4. The appeal on procedural issues also refers to wording in the referral to Mrs Jackson and the use of the word 'may' be referred to the Judges Committee; and that that was relied upon by Mrs Jackson in not submitting fuller representations at that time.

Mrs Jackson was not thereby given a fair opportunity to present her case especially as she contested the allegations and therefore the decision is procedurally unfair.

5. The referral letter advised of the potential of a referral to the Judge Committee.

The issue that Mrs Jackson was not therefore given the opportunity to provide a full submission is a matter that can be rectified on appeal where the opportunity to do so is available and Mrs Jackson has been able to provide her fuller submission as part of the appeal adjudication.

Relevant new evidence

6. The email correspondence with Fosse Data had not been included in the papers presented to the Judges Committee. This would have provided the Judges Committee with an awareness of Mrs Jackson's intentions in making the intervention on behalf of the exhibitor.
7. The Judges Committee had been provided with the essence of the concern being intervention/protracted intervention on behalf of an exhibitor before judging at an event. However, the issue of the email correspondence not being before the adjudicating body is rectified upon the appeal where the correspondence has now been presented to the Appeals Tribunal.
8. The Tribunal noted that Mrs Jackson held a genuine belief that the documents which had been provided by the exhibitor were bona fide and because Mrs Jackson's understanding was that there was a technical explanation for the whole issue, she was just trying to assist on the basis of her knowledge and experience.

Penalty imposed was disproportionate

9. The grounds for appeal include that the decision to suspend Mrs Jackson for three years for assisting the exhibitor is unduly harsh and disproportionate;

The aim of the sanction should be to impose a mark of disapproval.

Mrs Jackson's appeal is that insufficient weight was given to the mitigating circumstances; Mrs Jackson's unblemished record, her co-operation, her remorse and no harm was caused.

The Judges Committee also neglected to include an explanation as to why suspension for a period of three years had been deemed appropriate.

KC File for February

The Tribunal noted that Mrs Jackson acknowledges that;

Upon reflection, Mrs Jackson appreciates that in her position as a judge she should have approached this incident differently. She should have been less trusting and less driven to analyse from an IT perspective how this duplicate payment had happened without a trail.

The Tribunal also noted the character reference provided.

10. The aim of the sanction imposed should be to mark a disapproval of the error of judgement. The appeal suggests that the Committee gave insufficient weight to the mitigating circumstances namely Mrs Jackson's unblemished record, her cooperation, her demonstration of remorse and the fact that no harm was caused which would have justified a lesser sanction.

11. The Appeals Tribunal accepts that Mrs Jackson was acting in good faith.

The entire situation was clearly a misjudgement on Mrs Jackson's part;

- i. in the initial intervention
- ii. in persisting with the intervention when it was being made clear there was an issue;
- iii. it was a serious and severe lack of judgement;
- iv. the persistence exacerbated the matter;
- v. this was a complete overreaching and crossing of boundaries.

12. The Appeals Tribunal endorsed the finding of the Judges Committee.

Judges must be circumspect in engagement pre and post judging and generally. It was a poor lack of judgement.

13. The concern of the Judges Committee is entirely appreciated and understood.

However, in all the circumstances it was felt that overall, the sanction was disproportionate. Some remark is required but more of a sharp rebuke.

To that end, the Appeals Tribunal upheld the decision of the Judges Committee but the decision to suspend judging until 31 December 2028 is modified to expire with an end date of 30 June 2026.

Kennel Club Rule 11

Disciplinary Committee

26 November 2025

Mrs CJ Turner

Kennel Club Rule A11

The Committee having carefully considered the evidence, find that the complaint brought under Kennel Club Rule A11 a (1) (b) against Mrs Turner namely that she behaved discredibly or prejudicially to the interests of the canine world in posting denigrating remarks on social media and sharing private and confidential correspondence which was undermining and compromising to the Kennel Club's regulatory process is upheld.

The Committee impose the following penalties:

1. To warn her as to her future conduct [A11 j (1)]
2. To censure her [A11 j (2)]
3. To fine her £100.00 [A11 j (3)]

Mrs Turner's post cast aspersions and negative inferences about the integrity of the Kennel Club regulatory processes.

The Committee noted that Mrs Turner had engaged respectfully with the investigation, acknowledging the complaint and apologising for the content and phrasing of her comments.

Mrs Turner provided assurances to the Committee that there would not be a repetition in the future.

The Committee noted Mrs Turner's explanation of what had led to her posting and acknowledged that it is natural to have a personal opinion about regulatory outcomes which might include disappointment. Whilst fair comment and the freedom to express a personal opinion is recognised, it is not acceptable to openly denigrate a regulatory process and share private and confidential correspondence which undermines and compromises the process.

This is particularly so as a Kennel Club approved Judge, there is an expectation of a high standard of respectful engagement. It is incongruent to be publicly critical in the manner of the post complained about. Mrs Turner's post was beyond the bounds of respectful and reasonable engagement and there needs to be some reflection of that position.

The Committee noted a number of testimonials on behalf of Mrs Turner attesting to her good character and her significant and positive involvement generally in the canine show community and volunteering at Kennel Club licenced events. The Committee noted the testimonials which were taken into account when determining the appropriate sanction.

Rule A11 a (1) (b)

Any act or conduct which in the opinion of the Board is discreditable or prejudicial to the interests of the canine world and relates to or is connected with;

(b) the breeding, exhibition and judging of dogs, or any other canine activity

Royal Kennel Club SGM

Royal Kennel Club Special General Meeting 19 November 2025

The Royal Kennel Club held an SGM on 19 November 2025 at the Royal Kennel Club, Clarges Street, London.

1. The Chairman, Mr IJ Seath, chaired the meeting. Item 1 on the agenda was the Chairman's welcome and introduction. He introduced the top table (the Chairman, Mr Seath, the Vice-Chairman, Mr Eardley, the Chief Executive, Mrs Edgar and the Chief Finance Officer, Mr Lawson). The Chairman advised that an independent scrutineer, Mi-Voice, would oversee the counting of the votes.
2. Item 2 on the agenda was for the Chairman to read the notice convening the meeting, which was done at 11.30am.
3. Item 3 on the agenda was to receive updates from the Chairman, Chief Executive and Chief Finance Officer. The Chairman gave the following update:

'It is absolutely a pleasure and privilege to be standing here as your new Chairman of the Royal Kennel Club. We held a couple of really successful online meetings last week, and we had nearly 120 members participate in that. I'd really like to thank those people who attended and for the questions that you asked.

I'm now five months into my role. People regularly ask me are you enjoying it, and I think after five months I'm now actually starting to say yes, I am beginning to enjoy it. There are clearly some difficult messages that we need to share with people, and Andrew will cover the rationale and the explanation for the financial situation that we find ourselves in.

I do want to express my sincere thanks to my Board colleagues, to Jannine and the executive team and the staff at the Royal Kennel Club. I'm really pleased with the number of people that felt they've either been able to come and speak with me at events or send me messages either on Facebook or email. I can't promise to sort out all the problems that you email me, but I do promise to answer every message and have a conversation with everybody that speaks with me.

The focus of this SGM is really to demonstrate some real progress that we've been making since the Annual General Meeting, and that's not very many months ago. We have made some significant progress that you'll hear about. You asked for more transparency: transparency about what our committees do, transparency about how people get elected to committees. We will be addressing that in the course of this morning's session. You also asked us to address our approaches to the membership model, and we will be having a presentation on that, but you did have the papers in advance.

Lastly, but not least, I have a call to action for you at the end of this morning's meeting. All will be revealed. We'll see what that is.'

The Chief Finance Officer, Mr Andrew Lawson then gave the following update:

'Good morning, everybody. I'm very happy to be with you here today. I'd like to begin by taking a look at the journey our organisation has been on to get to this point. This is important context underpinning the decisions we need to make.

It is not new news that we've been making a loss for a number of years. As you can see on this graph, the purple line is declining trend for about the last five years, except for the year of Covid. Even pre-dating 2019, the Kennel Club was not profitable. Indeed, some of the points on this slide are flattering as we were able to dip into savings of sold assets in order to fund our working capital. This is no longer an option.

At our June AGM, Jannine promised an honest and transparent approach to our finances, and indeed, together, we have delivered just that – the truth and the only way forward through the 2024 accounts. We have worked hard to find the right answer from here, and indeed, through a forensic audit, turned over every stone. The 2024 financial results that you have received are difficult reading. They outline some deep-rooted issues and highlight some serious financial matters not previously measured. But they also mark a line in the sand and represent the turning point in the financial performance, the financial reporting, and financial governance at the Royal Kennel Club. We have steps in place to anticipate and manage any future potential challenges.

The output of this process has been a clean audit report after, in my own admission, probably the most difficult and challenging audit process that I've been involved in, in 30-plus years in finance and business. The clean audit report has been accompanied by a very comprehensive management letter, and there's a whole series of issues and corrective actions that have either started being implemented or are planned to be implemented in the coming months.

The 2024 financial accounts reflect a combination of training performance, increased sales offset by increased operating costs, exceptional items – principally restructuring and redundancy, pension advice and commercial due diligence – and, principally, the impact of resolving significant legacy financial issues, typically asset valuation, banking controls, and correcting material accounting errors for both the current year and previous fiscal years.

We have a number of significant material corrections in both the current year and in prior years that have necessitated a restatement of the 2023 financial accounts. We have turned over every stone and identified some deep-rooted challenges and some serious financial issues that had built up over many years that were not properly measured, were not effectively managed, or were not compliant with relevant accounting standards at the time. All key material items have been identified. There is no evidence of fraud, and all corrective actions have either been implemented or are actively being worked on.

The key insights and conclusions for me of the results of the 2024 audit are principally around five key items. Individually and collectively, they contributed to the results that the business shared with you all a couple of weeks ago. One, it's pretty clear we've had a not fit for purpose principal record of systems or businesses reporting system. Number two, we've had ineffective and incomplete data capture and integration amongst multiple systems that exist within the Royal Kennel Club. Number three, we've had ineffective management oversight of financial records and financial reporting. Number four, we've had inadequate financial governance and controls. Number five, the technical skills, capabilities and experience of the organisation,

and the endemic ways of working, behaviours, and culture across the organisation, have all individually and collectively contributed to the results that, sadly, we've had to share with you.

Once again, I must stress that the 2024 financial results are a line in the sand and they represent the turning point in the financial reporting performance and governance at the Royal Kennel Club. That is what the Royal Kennel Club needs and that is what I'm entrusted to do on your behalf.

There's a lot of numbers on here. You'll be relieved to know I'm not going to talk about all of them, but I'm sure there will be some questions. There's one green number on here which is really important, which is that in 2024, the Kennel Club's revenue was £800,000 more than the reported revenue in 2023, and that was despite the fall in registrations, which continued the trend of the previous three or four years post-Covid. That is evidence of the benefits of diversifying our income streams, which plays into the work that Jannine will talk about with regard to our business strategy and our 'kennel plan' going forward.

I'm also a realist, so there's lots of red numbers on this chart, and most of them are in brackets. Whilst we've had an increase in revenue, it's also true that we've had a significant increase in our operating costs, and there are explanations and rationale for all of that, principally around starting to invest in the growth drivers and the growth strategy that we will talk about going forward. Also, there are £858,000 worth of exceptional costs. The three things that I talked about earlier: restructuring, pension advice, and commercial due diligence.

The other key points to emphasise on here is if you continually deliver losses, you're eroding your working capital, you're eroding your reserves. We've got very good cash liquidity. We've got good solvency. But the reason why we need to restore profitability is we can't keep reducing cash positions year on year. That's a really, really important thing, and that was certainly something that we needed to demonstrate very aptly with our going concern assessment as part of our chartered accountancy in 2024.

The key item on this slide is the bottom row, which is what I'm calling the legacy balance sheet. I mentioned previously that the audit of 2024 has revealed a number of legacy issues, material items, mis-accounting etc. The net effective of the bottom row is that there's a £4.5 million reduction in the reserve value of the Royal Kennel Club at the end of 2024 versus the end of 2023. Principally, they are because of a correct revaluation of our heritage assets. We were treating the valuation of heritage assets on the wrong basis, and we had correspondingly not necessarily treated deferred income on our Petlog in the way that you would expect to, so that's had a corresponding uplift. We've had some impairment, otherwise known as revaluation, write down on our asset sales.

The last line is the one that I think for me personally was the one that was the biggest shock, and I think ultimately was the one item that precipitated the need to have a forensic accountant investigate all of the financial affairs of the Royal Kennel Club that Jannine announced at the AGM, which is one of the most basic parts of financial prudence, to reconcile your bank account. And as outlined at the bottom, we had

Royal Kennel Club SGM

£864,000 of unreconciled values in our bank account that dated well beyond 2022. That is what the outcome of the forensic audit has been. So, a tough read.

Coming back to this chart, you will see here that as we sign off the 2024 accounts, we expect to deliver another loss in 2025 – that's the continuation of the purple line – before breaking even in 2026. That is our clear target, and we have plans in place to achieve that. So, with rising inflation, drop in registrations, uncertain socio-economic environment, who knows what the Budget is going to be next week? Rebalancing the financial equation must continue to be our focus. Getting to a secure financial brand will enable us to reinvest every day back into dogs and our grassroots, to secure a strong resilience and thriving Royal Kennel Club for generations to come.

So, this is our journey to financial recovery. If you look at each year of our organisation, in terms of making this business transformation count, it can be positioned as follows: 2024 – legacy. Our core financial reporting system has not kept pace with needs of the organisation. In fact, the core accounting system that we have today is a redundant piece of software that Microsoft no longer support, and we've had in place for over ten years. There has been insufficient integration between our CRM system and all of our financial reporting, meaning the key information could not always be accessed or reconciled as efficiently as required. The structures for financial oversight have not been as robust as they needed to be, making it harder to maintain consistent visibility and assurance across all financial activities. Our financial governance framework required strengthening, including clearer controls. The finance team had been operating with legacy practices and ways of working.

In 2025, the theme is capability building and development. Easy to say on 19 November 2025, but I'm pretty positive that progress has been made in the four and a half months that I've been here on the back of the six months prior to my arriving in June. We are really focused on upskilling and recruiting and embedding modern ways of working, to ensure a fit for purpose team within finance and across the RKC moving forwards. These issues have all been clearly identified and systematically addressed through a structured plan. We now have the right capabilities. We're starting to improve our systems, and we have very clear and defined milestones in place to restore financial stability and build a solid financial foundation for the future. In 2026, the theme is going to be around delivery and governance, and in my area alone, we will have a new business system implemented in quarter one of 2026.

As of 1 January 2026, we will have a fully-staffed, capable, competent and professionally-qualified finance team. Since 1 July, six new people have joined the organisation in finance. Since 1 July, we've now quadrupled the number of qualified accountants in the Royal Kennel Club. What's also important is that next year my team will be rolling out a finance for non-finance management training programme for all of the managers within the Royal Kennel Club. Because good finance is not done by finance, good finance is done by the people who run the business, which is the commercial teams, the operational teams and their management. That's really important.

I'll leave Jannine and Paul to talk more in their

section around the area around execution in 2027 to 2030. So, it's a financial challenge. It always has been and it always will be, and it will be about getting the balance right. We're going to simplify, we're going to standardise, we're going to automate, and we're going to have a commercial mindset. Every time we talk to any customer, any supplier, any partner – I was once told that every time you meet a customer, a supplier or a partner, you're negotiating. The sooner you realise it, the more chance you might have of winning or succeeding in that negotiation. That is part of the mindset that we need to engender and develop further and wider within the Kennel Club. Effectively, we're going back to basics to fix a few fundamentals so that we can shape a different and more ambitious future. These include accuracy of cost management, stricter financial controls, better financial system in place with employees trained on how to become more budget conscious. In most organisations, the budgets are held by the business, they're not held by finance, so we need to transfer that ownership and accountability across the organisation.

Our executive team – some of them are in this room today – have clear responsibility for regeneration and profit responsibility. That is a major change to how it has been in the past, and it's much more of, dare I say, a normal business. That's all I'll say on that matter. Fundamentally, it's all about people. We need the right people with the right skills in the right roles with the right mindset and ambition levels. Mindset is really, really important. We must embrace and not shy away from proudly being a profit for purpose organisation with commercial nous and knowhow.

We should consciously move away from the notion that being commercial is bad and is contrary to our dog purpose. I would say it's the entire opposite. Being commercial provides us with the profit for purpose needs in which we can support and sustain the dog community that we're so proud of, and the heritage that we so want to pass forward in the future, because this is going to keep us here for generations to come. Improve and use our relationships to their fullest to drive profitable growth, getting that right balance. Applying that commercial mindset to all relationships. Maintaining tight fiscal control, cash, profitability and costs.

The cash is so important. The slide previously talking about the gap on the balance sheet around cash, it's a fundamental of financial controls. I'm pleased to say that standing here today we do a daily reconciliation to the bank account in the balance sheet, and our bank is reconciled from 1 January 2025 all the way through to 18 November 2025. My audit partner is in the room, so he'll tell me if I haven't done that, but I've just publicly declared it, so we are doing that.

We definitely need, across the organisation, to drive operational effectiveness and efficiency, to set standards and get things right first time. That's a really important parameter and foundation. It's been very well documented with Marks & Spencer the little things around the risk of cyber attacks. So, supporting this we need to relaunch, repurpose, and integrate a risk management policy across the organisation that's way broader: the financial reputation, safety, everything. That's a really important objective for 2026 and, fundamentally, we want to develop our high-performance culture. People

want to come to work and be buzzing and feel a real sense of pride about what they're doing. It's never nice to stand up and talk about cuts, or it's never nice to stand up and talk about the results that we have. But it's about being honest, it's about being humble, it's about setting the tone for the future.

Fundamentally for me, we need to harness technology and make sure that our systems and processes are fit for purpose, have scalability, are very systematically and consistently applied, and are robust. So fundamentally, it's not about the person, the system or our ways of working; it is a combination of all of these things that will enable a step change in our financial performance and organisational resilience. The net effect of all these things in my mind is having the confidence and the assurance to say that we will deliver a consistent £5 million surplus and be profit for purpose in the next three to four years. That is our mission. That is what all of the executive team and, I think, all of the Board are committed to delivering. I look forward to talking about that story in the years ahead.

So, for those of you who are artistic, you might see that this actually now has a profile that looks like a smile. Who knew that finance could provide a sense of humour? Anyway, it is my fundamental belief that for us to go forward on a secure and sustainable basis, we need to have 100% clarity of what went before. We need to build from a solid foundation of facts and financial best practice, supported by fit for purpose business systems, with effective financial governance managed by a strong team of appropriately skilled, experienced and competent financial professionals. The Board and Business Committee have been extraordinarily supportive of me since I joined and have been engaged throughout the entire review process, and fully support the need for transparency, accuracy and integrity with our financial performance, our reporting and our governance. We need to balance that with making sure not only that our assessment in 2024 is robust, but that our starting point for 1 January 2025, and importantly for 1 January 2026, is also correct.

So, what all of this means is that we have a sustainable surplus that allows us to invest in the community that you're all so passionate about. They are linked inextricably. They are the same coins with different sides. When we succeed, we will be able to invest in a whole range of activities and priorities. We will invest in the future through the Young Kennel Club. We will help and support clubs and societies to increase their football, which in turn will help them become more financially sustainable. We will further develop our breeder strategy to celebrate and protect our breeder network. We will invest in the health and wellbeing for all dogs, strengthening our thought leadership on the global stage. There are a whole raft of other examples, but they're pretty fundamental ones that I think resonate hopefully with many of you in the room. This is profit for purpose in practice. Our commitment remains unwavering to create a futureproof organisation that delivers on its policies, strengthens its financial position, and continues to have a positive impact on dogs and their owners for generations to come.

This has been a really, really difficult message to deliver, and I'm sure for all of you to receive. I look forward to answering your questions shortly. Jannine will outline the actions and positive developments already underway to bring

Royal Kennel Club SGM

our performance in line with your expectations and our expectations. Thank you very much.'

Following the update, questions and comments were addressed on the previous auditors; cost of the new business system; the restatement of the 2023 accounts; the CRM system; the trading loss for 2024; and redundancy costs.

The Chief Executive, Mrs Jannine Edgar, then gave the following update:

'Good morning, everybody. I am delighted to be here with you all again and also delighted that there are so many familiar faces that I've met at shows - that's given me great insight into our fabulous organisation. That was really hard to listen to. Obviously, we've been working on it for a fair old while. I would like to extend my thanks to Andrew. He's been an absolute lifesaver to come in and support me in turning up every stone, and also our auditors, Price Bailey, who we've been working hand in glove with to make sure that we can stand here today and say we believe that we've caught all of the material items, so thank you Andrew and the team.

It's now down to me to tell you the good news, I hope. It's really important that we turn the page and really look to the future. I can tell you a little bit about where we are with Emblehope. As you may recall, at the AGM earlier on in the year, you as members gave us approval to sell Emblehope. We put it on the market in August, and we actually have an offer for Emblehope. The offer is at a profit. Because of an exclusivity document that we signed, I can't share any more with you at the moment, but we are very hopeful that the sale will go through in the New Year, so that's a real positive from a cash perspective. What we will make sure of is that it's very carefully managed. We need to safeguard our reputation throughout the sale process and make sure that we support all involved.

Moving on to our future growth, you'll recall that I shared our 'kennel plan' with you at the AGM in June. This is really a symbol of where we're going for the future, to support dogs and their owners. At the top of the kennel you can see there is an image of our dog owner, and that's what all of our thoughts and growth plans are related to. Importantly, it's about protecting the Royal Kennel Club and making sure that we are sustainable. It's about turning a consistent profit, that Andrew mentioned, and making sure that we really have solid plans for the future. It's about moving our organisation through the growth plan from a state of survival. Nobody wants to come and talk about loss all the time - that's not good for anybody. We want to be sustainable and far more ambitious.

We've also talked at the AGM about what sits at the heart of our plan, and that is our two fantastic brands, the Royal Kennel Club and Crufts. We also talked at the AGM about our secret weapon, Petlog. I'll talk more about each of these shortly. We also talked at the AGM about why we needed to reposition our brands, and why that was important to really increase our relevance and make sure that our organisation was open to more people. I'm sure you remember seeing this slide, but I'll go through some of the stats anyway. It's true that whilst we all love and adore the Royal Kennel Club, the presence of our organisation for the general public is less strong. People simply don't really understand what we have to offer and what we do. 66% of dog owners only know who we are if prompted. Only 12% of people feel that we are relevant

to them. 51% of people think we only register pedigree dogs. Only 17% think that we do good for the health and welfare of dogs, which is so frustrating because we do so much more. 8% of people think that our role is to license shows and clubs. Of course, we do all of that, but we do so much more. Throw into the mix the fact that pedigree dog registrations are declining, we almost have the perfect storm, but we have a plan.

We believe that we have the right solution. You probably remember this diagram from the AGM. This is about how we prepare both of those very strong grounds to support the dogs and their owners. The Royal Kennel Club will continue to protect and promote the pedigree heritage and our members, whilst the Crufts brand will reach every dog owner, not only pedigree. Using the Crufts brand to attract new audiences by introducing them to the Royal Kennel Club, we hope that we can stimulate participation and also encourage people; when they think about getting their next dog, that their next dog is a pedigree. This plan is underpinned by Petlog. This is where we have the most amazing and powerful data that we believe allows us to engage with the dog owner very early on in their journey of microchipping, so that we can get the right products to the right people at the right time. This, we believe, is a sustainable approach that really reflects who we are as the Royal Kennel Club. It's also something that we are uniquely positioned to do. There is no one else that can do this.

So, I'm really delighted to announce that next week, on 25 November, we will be launching these brands to the public. Many of you know that we've been talking about this brand repositioning for 18 months to two years, and there has been a large amount of effort, both internally through Emma's team, the support of the Board, the Business Committee. Lots and lots of sleepless nights have gone into what I'm about to show you, but we're all very, very passionate that this is our route to success. These refreshed brands are the ribbon that wraps around everything that we do, and they are symbolic of a new era and a new journey for the Royal Kennel Club. Let me show you a little bit with this diagram how our refreshed brands will work. The Royal Kennel Club as an organisation will continue to be the most important and play a role in changing the perception, addressing relevance and saliency. The Royal Kennel Club brand is becoming braver and bolder and is talking in the right language to be a thought-leader in relation to pedigree dogs. Crufts, however, will align with the excitement that we all feel for the event. It is a real pinnacle of status for us. And instead of it being just a four-day event, we want to embrace the brand 365 days a year.

At the AGM, I read you our new manifesto. It's all about the dogs, and it really is. We have stayed true to the concept that we talked about at the AGM, embracing our British heritage, bringing it to life in a way that is seen differently, and the dog really becomes the protagonist, something we can all be proud of. Back to technology, I absolutely love this picture. This beautiful Irish Setter in the most stunning location. Who would not want to engage with the Royal Kennel Club when they see this image? For me, this is the start of really telling people we're open for business and come and be part of our organisation.

We are going to show you an exciting selection of our new brand imagery. I love this slide particularly, and this is what we will start to share with audiences from 25 November. As we transition from our old brand to our new branding, we will introduce the new Royal Kennel Club. This will be seen on the Royal Kennel Club and the Crufts website, on posters at canine activities and events, on signage, across social media, and in many, many other places. You will see the tagline here is 'at their service'.

Now, for centuries, people have talked about the master and the pet. For those of us in this room, we know that is a very, very wrong sentence, because everything that we do is for our dogs, and that's why we've chosen the tagline 'at their service'. This not a change to our purpose, it's just a slightly more modern, cleverer way of demonstrating what we're here for. When we go live with our new brand, this is something that we're going to draw a lot of attention to. For now and for always, the Royal Kennel Club and Crufts will service all dogs, pedigree and all type of dogs, and this where we will have an expanded product and service model.

On 25 November, we will also introduce to the world our Crufts brand, which is becoming an all-year-round, 365-days-a-year brand. This visual for me really unleashes the personality of dogs - we've all got plenty at home or we've had them in our lives, that have shown us that cheeky little face. For me, this is about really how we engage with more people. It really does give you joy. For me, we all feel that joy at Crufts and every other dog show we attend, and I think this image really captures that for us. What does it mean? What are we doing? As of next week, we will be pre-signing interested parties so that they have early access to a wide range of products and services. These include training opportunities, events and activities, health resources, food and wellness opportunities through our partners and much, much more. People who sign up, hopefully, as of next week, will start their journey by having a unique Crufts code. They will also get our new newsletter, and they will also be open to working with some of our partners on discounts through from November to February. You can join the Crufts Club if you have a pedigree dog, or if you have any type of dog, you are welcome under this brand.

In Q1 next year, we will begin to launch new products and services. We'll start in December with our new pet protection subscription service. This is as a result, and we talked it about it at the AGM, of our commercial collaboration with identibase. This is designed to unlock new and innovative pet protection products and services. These subscription services, which will be launched in December, will be called Petlog Secure and Petlog Unite. This really marks the first step in delivering a refreshed Petlog brand and a refreshed reunification and pet protection service. It will have a wide range of extended products that we will build over time, but it will appeal to new customers as well as existing. These new services reflect our new commitment to pet welfare and improving customer service right across the lifecycle of the dogs.

Also very exciting, we are going to have our own microchip, which we've been wanting to do for a number of years. This will be launched in January. This microchip is very much focused on our breeder and private implant community. You can see with the green tagline here this is actually what the packaging will look like. We're

Royal Kennel Club SGM

all very excited that that will be launched into the marketplace. I'm sure you'll agree that is also another exciting development that we will see in January.

In summary, these plans we believe will really move us forward. Not just commercially, and I think that's really important. Whilst the finances are important and we want to be profit for purpose, we also want to be a stronger organisation, more diverse and relevant to a wider community. With the Royal Kennel Club and Crufts at our heart, we feel that we have a real opportunity to build on our heritage and secure the income needed to continue our fantastic work.

I'm really delighted to show you a short film, which is our brand launch film, which will be shared with the general public on 25 November. We as a team are very proud of this, and we hope you will be too. It makes me feel very emotional watching it, so I hope you feel as emotional as I do. We have the most amazing team that are delivering this brand relaunch. I'm incredibly proud to stand here as the Chief Executive of the Royal Kennel Club, so thank you very much.

In closing, I would just like to say that we have been championing Britain's dogs in since 1873. I hope what you've seen today really gives you the energy and excitement that I have that we're going to be bigger, better and bolder, building on the shoulders of what's been achieved over 152 years. Protecting and enhancing the Royal Kennel Club and Crufts is our main purpose, and making sure we are still here for generations to come. Thank you very much.'

Following the update, questions and comments were addressed on the brand launch film; the potential for a Crufts app for mobile devices; dog training; and corporate partnerships.

4. The Chairman then turned to item 4 of the agenda, which was to receive from the Board the Audited Accounts for the year ended 31 December 2024 for the Royal Kennel Club Limited (Article 41.3.2). The Chairman advised that the Board had signed and approved these at its meeting on 3 November, the auditors, Price Bailey LLP had completed their audit file and countersigned the accounts on 4 November, and that these were then duly received by the members from 5 November.

5. Item 5 on the agenda was a proposal on behalf of the Board that the following Royal Kennel Club A Rules were amended: Rule A7, to amend the list of committees and change the name of the 'Risk Assurance Committee' to 'Risk and Audit Committee' and delete Rules A7.c-n; Rule A10, to amend the reference to the 'Risk Assurance Committee' to 'Risk and Audit Committee' in line with Rule A7; Rule A11 and Rule A12, to delete all reference to Disciplinary Committee (Scotland); and to delete Rule A(B) in its entirety. The Chairman invited the Vice Chairman, Mr PR Eardley, to outline the proposal. Following Mr Eardley's presentation, comments and questions were addressed on the election of representatives to committees and the size of committees.

The Chairman invited the Members to vote using the ballot paper provided. Once the ballot papers had been collected, the Chairman moved to item 6 of the agenda.

6. Item 6 was to receive a presentation on behalf of the Club Committee on the Royal Kennel Club membership model. The Chairman invited Ms L Paterson to give the presentation. Following the presentation, comments and questions was addressed on the transition towards the proposed new membership model, the criteria for membership, the proposed benefits of membership, the status of current Associates and the prospective fees for each level of membership.

7. Item 7 was to receive a presentation on behalf of the Board on future governance of the Royal Kennel Club. The Chairman invited Mr Eardley to give the presentation. Following the presentation, comments were addressed on the proposed review of the Royal Kennel Club's constitution and the election process for the Board.

8. The Chairman then announced the result of the voting on item 5, whereby Rule A7, Rule A10, Rule A11 and Rule A12 be amended and that Rule A(B) be deleted in its entirety. The proposal had received the two-thirds voting majority threshold required and was carried.

At the conclusion of the meeting, the Chairman thanked the staff responsible for the organisation of the meeting. Finally, the Chairman announced the launch of the Royal Kennel Club pledge to sportsmanship, civility, fairness and respect, which he then signed and encouraged those present to do so.

The Chairman then thanked the Members present and declared the meeting closed at 1.43pm.
